

# 120kWh Intelligent Energy Storage Cabinet for Network Server Rooms

Whether supporting peak shaving, demand response, or renewable integration, the 120kWh Micro-grid Air-cooled ESS is your trusted solution for next-generation energy storage systems in the C& I sector.

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications. Explore reliable, and IEC ...

Discover our scalable 50kW/120kWh sodium-ion energy storage cabinet, designed for efficiency and air-cooled performance. Power your future sustainably!

Peak shaving and valley filling: by charging and storing energy at valley time and discharging energy at peak time, the electricity cost of customers can be reduced and the electricity charge at the power ...

Standardized and scalable design for long-lasting, intelligent energy storage. Compact footprint with high single-cell energy density. Single cabinet footprint reduced by over 20%, with multi-unit scalability for ...

The 100/120kWh air-cooled solar + storage all-in-one cabinet is designed for commercial and industrial parks, small solar power plants, solar + storage + EV charging sites, community microgrids, and off ...

Featuring 215kWh of LiFePO<sub>4</sub> storage and a 120kW PCS, this system is engineered for industrial parks and commercial complexes that require high-power energy management.

20-120kWh modular battery storage system for commercial, solar, and backup applications. Scalable, high-voltage solution with LiFePO<sub>4</sub> safety and BMS.

Explore our advanced energy storage systems: 60kW/120kWh and 100kW/215kWh. Optimize your energy efficiency and reduce costs with reliable solutions.

With integrated inverter, battery, EMS, and BMS, plus advanced safety features and off-grid capability, it offers reliable power security, energy cost optimization, and black start functionality.
