

120kWh of industrial server racks used on islands along the Belt and Road Initiative

How big is the Belt & Road Initiative (BRI)?

Since its launch, the scope of the BRI has grown rapidly. According to the Belt and Road Portal, China has, as at October 2019, signed 171 co-operation documents with 30 international organisations and 137 countries (see Figure 2).⁴ The BRI's footprint is now enormous- extending from East to West, from the Pacific to the heart of Europe.

How does the Belt & Road Initiative help developing countries?

Under the cooperation framework of the Belt and Road Initiative, China supports developing countries such as those in Asia, Africa and Latin America to invest more in infrastructure. As a result, the benefits of world economic development are continuously brought to those countries.

How many TEUs are transported through the new international land-sea trade corridor?

In 2022, more than 180,000 TEUs were transported through this line, with rail trips exceeding 2,600. The routes of rail-sea freight trains of the New International Land-sea Trade Corridor cover 18 provinces and equivalent administrative units, in central and western China, transporting goods to 300-plus ports in more than 100 countries.

What is the Belt & Road Initiative Space Information corridor?

The construction of the Belt and Road Initiative Space Information Corridor has been a resounding success. China has built teleports connecting South Asia, Africa, Europe, and the Americas. The data from remote sensing satellites under the China-Brazil Earth Resources Satellite (CBERS) program is widely used in multiple countries and fields.

Grydehøj et al. (2020) note the prominence of islands in China's Belt and Road Initiative (BRI), especially through its 21st-Century Maritime Silk Road, but Li et al. (2020) point to the lack of ...
