

Access to reliable and sustainable electricity supply is a game-changer for remote communities, and the Government of Vanuatu is planning to embark on a comprehensive programme which will electrify most ...

The paper examines whether Vanuatu's most populated and energy-intensive island could reach the 100 % renewable energy goal cost-effectively and affordably. Different technology scenarios are ...

Second in line after solar energy, wind energy generation capacity counted approximately 3.4 MW in 2021, representing 29% of Vanuatu's total renewable electricity capacity.³⁵ This capacity allowed to produce ...

The Vanuatu Government had signed a concession contract with VANPAWA2 Ltd to assume the operations of the Tanna and Malekula concession, which they have taken over the generation and supply of electricity ...

Vanuatu's National Energy Road Map (NERM) 2016-2030¹, concluded that energy demand in Vanuatu could more than double between 2015 and 2030. This growth is expected to be driven largely by commercial and ...

The project will help integrate more renewable energy into existing power grids, lower greenhouse gas emissions, and support more affordable and stable energy access in Vanuatu's most populated and ...

While there are many occupations of the clean energy workforce, most of the critical are found within trades, technical occupations and engineering professionals, where training times and licensing and accreditation ...

While all five forms of energy justice are complementary and intrinsically linked, this article specifically examines the "triumvirate of tenets" applied to the Vanuatu Rural Electrification Project (VREP) II ...

To turn ambition into reality, Vanuatu has established a strong policy framework to accelerate the adoption of clean energy. The government has taken decisive steps, such as removing taxes on photovoltaic ...

Energy self-sufficiency has been defined as total primary energy production divided by total primary energy supply. Energy trade includes all commodities in Chapter 27 of the Harmonised System (HS). Capacity ...
