

It offers a space-saving solution that can support high-capacity mining setups, boosting overall mining productivity and reducing energy consumption compared to traditional air cooling methods.

This product is a 200kW/480kWh industrial and commercial integrated energy storage cabinet utilizing Lithium Iron Phosphate (LFP) battery cells.

3) .200KW Immersion cooling boxes can hold 39x Antminer miners and it needs about 1000-2000L oil . Why immersion cooling ? Benefits: overclocking, noise reduction (40/120KW almost no noise), heat ...

This is 200KW immersion cooling cabinet for Miner cooling in the process of work. It adopts self-developed immersion cooling system to improve the cooling and heat dissipation of server in a more ...

The AP-H20 Series Hydro Cooling Cabinets provide a flexible and efficient solution for modern crypto mining operations. Supporting both Antminer and Whatsminer units, these cabinets can be expanded ...

Our 200KWh outdoor cabinet energy storage system works with PowerNet outdoor control inverter cabinets for modular expansion. This means you can meet the needs of large-scale applications ...

With the H200-S-3U watercooling cabinet 200Kw you can be sure that your mining operation is in good hands. Invest in this professional-grade cooling system today and take your mining operation to the ...

By applying our fluid cooling cabinet, clients are available to mine as their wishes, even in their garden. Noise generated by the devices will be defused by the cabinet.

The 200kW/200kVA high power CPS three phase energy storage inverter is designed for use in commercial and utility-scale grid-tied energy storage systems.
