

2MW Latin American Battery Cabinet for Data Center

Designed by data center experts for data center users, the Vertiv(TM) HPL battery cabinet brings you cutting edge lithium-ion battery technology to provide compelling savings on total cost of ownership, ...

Modular design with up to 2MW in 200kWh increments. Discover the SRC-2000, an advanced battery storage solution with up to 2000 kWh. Ideal for energy optimization and critical infrastructure support.

Engineered for use with most type of battery terminal models, these cabinets can fit a wide variety of applications. This solution is completely customizable and flexible to support your application ...

The Vertiv(TM) EnergyCore Li5 and Li7 battery systems deliver high-density, lithium-ion energy storage designed for modern data centers. Purpose-built for critical backup and AI compute loads, they ...

Providing safe, reliable, high-power, the BlueRack(TM) 250 is designed to mate with all data center type 3-phase UPS manufacturers equipment, as well as numerous other critical power systems.

It provides lifetime onboard data storage, tracking performance over battery charge-discharge cycles, service events, and enabling accurate state-of-health reports that can be used for ...

Modern data centers demand rack batteries with N+1 redundancy and hot-swappable modules. At RackBattery, we integrate liquid-cooled LiFePO4 racks delivering 2MW/15min runtime in 800mm ...

Exponential Power's Battery Cabinets & Enclosures provide durable, secure solutions for telecommunications and industrial applications. Designed to protect battery systems, these cabinets ...

We carry a full line of factory-assembled cabinets designed for data center UPS backup systems with pure lead agm batteries.
