

This small high voltage lithium battery system could be used as UPS or solar energy storage system. HV design makes this system works more efficiency and energy green.

LiFePO4 EV battery packs (200-630kWh, 400V-800V) for electric trucks, buses, boats & locomotives. 330kW peak power, 912Ah capacity, ISO-certified. Trusted by 500+ fleet operators.

High-Voltage Efficiency - Operates at 400V, allowing for faster charging and better energy conversion compared to lower-voltage batteries. Expandable Storage - Need more power? Parallel two batteries ...

Discover 400V lithium battery packs with long cycle life, IP67 protection, and CE certification. Ideal for EVs, solar storage, and heavy-duty applications.

The LBC 400V 84KWH - LFP Battery Pack is a high-performance battery solution designed for applications requiring reliable and efficient energy storage. With its advanced LFP chemistry, this ...

Designed for businesses that require a battery with high voltage output, this advanced 400V lithium battery system offers long cycle life, fast charging capability, and stable power delivery.

It can process and monitor up to 16 stackable battery packs at the same time, provide a battery balancing function, manage different batteries with the same charge and discharge requirements, ...

This makes the EGBatt 400V 200Ah LiFePo4 Lithium battery HV ...

400Volt 64kWh stackable lithium battery pack is designed by Delong. We connect four lifepo4 battery modules in series to achieve a total voltage of 409.6V. Each module is rated at 102.4V and 157Ah, ...

Robust and Durable Design: Built to endure harsh environments, our battery packs feature IP67 protection, making them resistant to dust and water ingress. The shell is constructed from high ...

This makes the EGBatt 400V 200Ah LiFePo4 Lithium battery HV ESS an excellent choice for on-grid solar energy storage applications, as it can deliver reliable and efficient power storage for many ...
