

The document provides specifications for the BSM455M-72HPH solar panel model, detailing its electrical parameters, mechanical characteristics, and temperature coefficients. It includes information on maximum ...

o Up to 455W front power and 20.8% module efficiency with half-cut and MBB (Multi Busbar) technology bringing more BOS savings
o Lower resistance of half-cut and good reflection effect ...

Specifications subject to technical changes and tests. JA Solar reserves the right of final interpretation. Remark: Electrical data in this catalog do not refer to a single module and they are not part of the offer. They only ...

It provides detailed technical specifications and performance data for the CANADIAN SOLAR 455W solar panel, enabling informed decisions about system design, installation, and expected energy yield.

The typical output voltage of a 455w Mono Solar Panel can vary depending on the specific model and manufacturer. However, most 455w Mono Solar Panels have an open-circuit voltage (Voc) of around 45-50 ...

Provides higher module efficiency under low irradiance conditions, and achieves greater installation capacity in a limited space. ISO14001: 2015 and OHSAS: 18001 2007. blowing test: IEC 61701, IEC 62716, DIN EN ...

Design (mm) Mechanical Parameters Operating Parameters Cell Orientation: 144 (6x24) Junction Box: IP68, three diodes Output Cable: 4mm², 1400mm in length (for EU DG) Glass: Single glass 3.2mm coated ...

Assembled with 11BB PERC cells, the half-cell configuration of the modules offers the advantages of higher power output, better temperature-dependent performance, reduced shading effect on the energy generation, ...

Remark: Electrical data in this catalog do not refer to a single module and they are not part of the offer. They only serve for comparison among different module types.

El panel solar Longi 450W LR4-72HPH 450/MR, es un módulo monocristalino de 450W y 144 células (6x24) de la marca Longi, uno de los fabricantes líderes de la industria fotovoltaica ...
