

5GW high-efficiency solar module manufacturing project

What is Grand Sunergy's 5GW high-efficiency heterojunction photovoltaic module project?

On January 13, the first equipment for Grand Sunergy's 5GW High-Efficiency Heterojunction Photovoltaic (PV) Module Project at the Laizhou Heterojunction Dual-Carbon Industrial Park was successfully delivered and installed. The project, approved in August 2024, has been recognized as a major initiative in Shandong Province's 2025 development plan.

What is the action plan for photovoltaic industry in Shandong province?

In 2024, the Shandong Provincial Department of Industry and Information Technology released the Action Plan for the High-Quality Development of the Photovoltaic Industry in Shandong Province.

What role does Shandong province play in Grand Sunergy's market strategy?

Shandong Province plays a crucial role in Grand Sunergy's market strategy. In 2024, the company supplied premium PV products to two key projects: the 400MW offshore PV project in Zhaoyuan, Yantai, by China General Nuclear Power Group (CGN), and the 600MW "Salt-PV Complementary" project in Tushan, Laizhou.

What is Grand Sunergy project?

The project, approved in August 2024, has been recognized as a major initiative in Shandong Province's 2025 development plan. It will be implemented in three phases: 1.25GW in the first phase, 1.25GW in the second, and 2.5GW in the third. Shandong Province plays a crucial role in Grand Sunergy's market strategy.

The first phase of the project plans a total investment of about 12.2 billion yuan to achieve an annual output of 50,000 tonnes of high-purity silicon, 10GW of high-efficiency n-type ...

DMEGC Solar, a player in the solar energy industry, recently celebrated a significant achievement as its first 5GW high-efficiency solar ...

LONGi Solar, a global supplier of solar monocrystalline products, announced the commissioning of its 5GW high-efficiency monocrystalline module factory in Chuzhou, Anhui, China. ...

Recently, news came from DMEGC Solar that the first PV module of the Phase II 5GW factory of Lianyungang officially rolled off the production line. So far, together with the 5GW Phase I ...

DMEGC Solar, a player in the solar energy industry, recently celebrated a significant achievement as its first 5GW high-efficiency solar module rolled off the production line at the ...

The Team of DMEGC Solar Celebrates Its 5GW Modules Rollout at the Lianyungang Manufacturing Base With a designed production capacity of 5GW, the new base utilizes large-size N ...

Jingao 5GW high-efficiency photovoltaic module project is another new project started by Baotou Jingao Solar Energy Technology Co., Ltd. this year, and is also the first photovoltaic module project in ...

On July 7, the groundbreaking ceremony for DAS Solar's 5GW Pingshuo photovoltaic module production base was held inside the State Power Investment Shanxi New Energy Base ...

On January 13, the first equipment for Grand Sunergy's 5GW High-Efficiency Heterojunction Photovoltaic (PV) Module Project at the Laizhou Heterojunction Dual-Carbon ...

On June 6, the first 5GW high-efficiency heterojunction solar cell manufacturing plant in Yunnan constructed by China Construction Engineering Corporation (CECC) Yunnan Branch - ...

Huasun Energy proudly inaugurated the Huasun Hefei 5GW High-Efficiency Heterojunction (HJT) Cell and Module Project on ...

Huasun Energy proudly inaugurated the Huasun Hefei 5GW High-Efficiency Heterojunction (HJT) Cell and Module Project on December 30th in Feixi County, Hefei, Anhui ...
