

Haichen Energy: On December 12, 2023, Haichen Energy introduced the MIC 1130Ah long-duration dedicated storage cell and a 20-foot 6 MWh battery system based on this cell.

BYD's Iron-Phosphates battery storage system with a capacity of 6MW/36MWh accounts for the majority of the project's energy storage. The energy storage station aims to achieve wind-solar output ...

TLS Energy has successfully deployed a 6MW/6MWh Battery Energy Storage System (BESS) in Sweden, delivering advanced frequency regulation and grid stabilization services.

Narada Power Source displayed its next-generation large-capacity energy storage solutions at the Beijing Energy Storage Expo on April 11. The company unveiled a 690Ah high ...

The 6MW/36MWh vanadium flow battery energy storage power station features peak-shaving and frequency-regulating capabilities. It employs a peak-shaving and valley-filling ...

January 31, 2026 - The world's first 400MWh energy storage station utilizing 628Ah ultra-large battery cells at scale was officially connected to the grid. The station is equipped with 80 sets of ...

On April 9, CATL unveiled TENER, the world's first mass-producible energy storage system with zero degradation in the first five years of use. Featuring all-round safety, five-year zero degradation and a ...

CATL has unveiled TENER, a 6.25-MWh energy storage system that is showing zero degradation in the first five years of use. While preventing the degradation of capacity over the first ...

SynVista connected a 6MW/24MWh battery energy storage system in Cuo Mei, Xizang, delivering reliable solar storage for extreme high altitudes.
