

Air-cooled energy storage cabinet fire protection system

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency applications, our solutions offer remote ...

Sunway 100kW/215kWh Energy Storage System is designed for businesses and utilities looking for a safe, intelligent, and efficient way to store and manage energy.

It provides multi-mode operation, adapts to all scenarios such as microgrids, photovoltaic/wind power storage, industry and commerce, grid side, and photovoltaic storage and charging, and has built-in ...

The system integrates battery modules, power conversion, temperature control, fire protection, and remote monitoring in a compact, modular cabinet suitable for commercial and industrial energy ...

Available in both 100kWh and 215kWh capacities, this modular system integrates power modules, batteries, cooling, fire protection, and environment monitoring in a compact outdoor cabinet.

The Air-Cooled 100KWh Outdoor Cabinet Series C& I Energy Storage System features an integrated design that combines batteries, BMS, EMS, modular inverter, and fire protection system into one ...

ROBUST FIRE PROTECTION Built-in perfluorohexanone fire suppression and alarm system for automatic safety and instant fault alerts.

Equipped with fire protection and flexible AC/DC configuration, its lightweight design enables easy installation, delivering a safe, efficient all-in-one energy storage solution.

Discover the advanced 100KW-215kWh Outdoor Cabinet Energy Storage System with air-cooled technology. Ideal for peak shaving, backup power, and enhancing renewable energy use in industrial ...

It responds quickly, boasts high reliability, and offers functions such as peak shaving, power capacity expansion, emergency backup power, grid balancing, capacity management, and multi-level parallel ...
