

How do you catch a bass?

Find backwaters, secluded ponds, and hard to reach river stretches for the best action. Watch (and listen) for topwater activity. When you see bass and hear bass blowing up on the surface, tie on your favorite topwater lure. Buy a kayak. If you're a new bass angler and don't want to commit to a souped up bass boat, a kayak will get you in the game.

How do you lure a bass?

The technique can be employed with a spinning rod or baitcasting rod, and it allows you to send a lure deep under overhead cover, which could be anything from low-hanging tree branches to bank brush or a dock. Bass gravitate to areas with an overhead canopy several times throughout the season.

How do you catch a bass at night?

Competition from other anglers drops way off, giving you a crack at less pressured and less wary bass. Several tactics can score you late-night behemoths, but one of the most effective methods is fishing with a loud topwater lure like a buzzbait, Jitterbug, or Spook.

What to do if you hear a bass blowing up?

When you see bass and hear bass blowing up on the surface, tie on your favorite topwater lure. Buy a kayak. If you're a new bass angler and don't want to commit to a souped up bass boat, a kayak will get you in the game. These are the best kayak fishing tips from a pro bass angler.
