

The upcoming BESS auction represents one of Latin America's largest emerging storage opportunities. With consultation in November 2025 and auction in April 2026, U.S. firms should act ...

Brazil launches a 2026 energy storage auction to boost large-scale battery projects and define storage's role in its evolving power market.

Earlier this year the country opened a public land bidding auction seeking 13GWh of standalone energy storage projects across four regions - Arica and Parinacota, Tarapaca, ...

ISA Cteep, a private-sector power transmission company, agreed to build the first large-scale energy storage project linked to Brazil's National Interconnected System (SIN).

The auction will enhance Brazil's power grid reliability by integrating energy storage solutions for electricity generated from renewable sources such as wind and solar.

From pv magazine Brazil. Brazil's Ministry of Mines and Energy has announced plans to open a public consultation for a capacity reserve auction focused solely on battery storage, set for 2025.

Brazil's planned electricity auctions in 2025 could drive between R\$47 billion and R\$57 billion in investments, according to a study by the Energy Research Company (EPE), an agency ...

Brazil's first-ever auction to add batteries and storage systems to its national power grid, scheduled for later this year, is seen generating \$450 million in investments, according to an...

Changes to Brazil's first capacity reserve auction of 2025 could undermine the expansion of the procurement regime to include battery energy storage systems (BESS) in the second exercise ...
