

Moreover, estimates from the Bulgarian Association for Production, Storage, and Trading of Electricity (APSTE) indicate that Bulgaria has tripled its installed solar capacity since 2020, with a ...

Renewable electricity capacity increased by 938 MW in Bulgaria last year, compared to the addition of over 1.2 GW in photovoltaics in 2023. At the turn of the year, projects for a total of 4.1 ...

Solar power generated 12% of Bulgaria's electricity in 2023. By the end of 2020 about 1 GW of solar PV had been installed. It has been estimated that there is potential for at least another 4 GW by 2030. By the end of 2024 about 3.9 GW of solar had been installed. On March 13, 2023, peak photovoltaics power was 30% of Bulgaria electricity gener...

In the last two years, Bulgaria's total solar power capacity has nearly doubled, now exceeding 3 GW. This is largely due to the addition of major facilities, mostly owned by domestic ...

The power plant is on track to become operational early next year. A 123 MW system will be on 400 hectares between the villages of Knizhovnik and Dolno Vojvodino in Haskovo.

Asked what the best energy solution for Bulgaria is--solar, batteries or a mix of sources--Beleliev explained that it lies in solar systems combined with properly sized batteries located at the ...

Bulgaria installed over 1 GW of solar for the third consecutive year in 2025 and is forecast to add over 2 GW this year thanks to a large pipeline of utility-scale projects. Bulgaria added 1,416...

A 16.2 MW solar power plant in Zdravetz, Bulgaria was expected to be completed in June 2012, with power being sold for \$0.30/ kWh in a fixed rate 20 year power purchase agreement.

Bulgaria reached a critical milestone in its renewable energy transition in 2025, building 1,416 MW (1.4 GW) of new solar photovoltaic (PV) capacity -- its third consecutive year above 1 GW - bringing the ...

Bulgaria's #Solar Momentum: A Record 2025 ??? #Bulgaria has officially set a new benchmark in its #energy transition. According to recent industry data, the country successfully ...

Bulgaria added 1,416 MW of solar last year, according to official data published on the ENTSO-E Transparency Platform. The result marks the third consecutive year Bulgaria has ...
