

Once completed, the Tenevo project will encompass a 238 MW solar site alongside the 315 MW/760 MWh BESS and 250 MW of wind turbines, making it Bulgaria's largest and most ...

Independent power producer (IPP) Renalfa has commissioned a solar co-located 65MW/260MWh battery energy storage system (BESS) in commissioned in Tenevo, Bulgaria. The ...

Solarpro delivers battery energy storage systems, enabling reliable, efficient renewable energy integration and optimized power management.

In 2024, GSL ENERGY successfully installed a 7.45MWh industrial-grade BESS energy storage battery system in Bulgaria, integrated with solar photovoltaic power generation, to provide ...

The Bulgarian city of Lovech, northeast of Sofia, hosts the strongest battery energy storage system (BESS) in the Balkans. The Ministry of Energy even said the new facility, with a ...

Sunterra RE has commissioned the largest battery energy storage system (BESS) at the Galabovo solar photovoltaic power plant, featuring an installed capacity of 75 MW and a usable ...

This significant milestone marks the system as Bulgaria's largest BESS project to date, jointly developed by Kehua and Solarpro, the largest energy EPC company in Eastern Europe and a leading ...

Battery energy storage systems (BESS) have become vital for integrating renewable energy sources. This article examines the legal landscape surrounding BESS with a particular focus ...

Located next to a photovoltaic park within Balkan Industrial Park, it is part of the country's first closed licensed power distribution system. The Bulgarian city of Lovech, northeast of ...

Transformation of AES Galabovo into a large-scale energy storage facility using proven technology implemented in concentrated solar power plants (CSP) using molten salts
