

Designed by LONGi, this module is built for high-efficiency energy generation in commercial and industrial settings. The half-cut cell design improves performance by reducing power loss due to ...

John's RV solar upgrade used 6 $\times$ 12V panels in series-parallel: two parallel strings of three panels each (3 $\times$ 12V=36V per string, 36V $\times$ 2=72V total). This configuration powered his air conditioner while ...

Backed by advanced technologies, LONGi solar panels feature excellent power ratings and top conversion efficiencies, and can be used across all market segments. LONGi's field-proven bifacial ...

LONGi launched its mono-PERC modules in 2016, featuring integrated PERC technology on monocrystalline silicon and low light degradation, and its cell efficiency has increased from 21% to ...

The LONGi LR7-72HGD-600M is a 600W bifacial solar module featuring 72 N-Type TOPCon cells. This cutting-edge module is designed for maximum energy generation in commercial and industrial projects.

Built with 72 high-efficiency cells and a durable silver frame, it is engineered to deliver long-term performance and durability for residential, commercial, and utility-scale solar installations.

LONGi, founded in 2000, is a solar panel manufacturer based in San Ramon. On this page, you can find a complete list of solar panels from LONGi and compare models side-by-side.
