

Clarios creates the most advanced battery technologies for nearly every type of vehicle. We are a global leader in advanced energy storage solutions.

The production of Clarios' one-millionth lithium-ion battery marks a new chapter in its evolution as a leader in energy storage. It signals readiness for the challenges ahead as the ...

Advanced low-voltage energy storage systems that can produce high-power bursts are required for next-generation vehicle platforms. For safety-critical car operations like steer-by-wire and ...

Clarios acquired Maxwell Technologies to add supercapacitors to its energy storage portfolio, enhancing supply-chain resilience and battery circularity. Maxwell will remain an ...

The long-term investment is aimed at strengthening the nation's minerals supply chain through the expansion of new and existing facilities that make advanced batteries and energy ...

Clarios, a global leader in advanced energy storage solutions, announced today it is evaluating U.S. locations for a next generation technology campus anchored by new supercapacitor ...

Clarios is the global leader in advanced, low-voltage battery technologies for mobility. Our batteries and smart solutions power nearly every type of vehicle and are found in 1 of 3 cars on ...

Enter Clarios Energy Storage--the unsung hero bridging the gap between energy generation and real-world usage. As global demand for reliable power solutions skyrockets, Clarios ...

Clarios, a global leader in low-voltage energy storage solutions, announced its acquisition of Maxwell Technologies, a U.S.-based manufacturer of supercapacitor cells and modules ...

Other parts of the \$6 billion investment package will focus on boosting the development of cutting-edge energy storage technologies and recovering critical minerals for reuse. Clarios will also ...
