

# Constant Temperature and Humidity Type OEM Communication Power Supply Cabinet

The six-model lineup includes 105- and 206-liter models available in four temperature (humidity) ranges and two sizes. All models support a single phase power...

Designed to house a variety of communications equipment, customers take advantage of our engineering and factory integration for complete turn-key solutions. The CNTCE product line ...

The SIMN XHH Series represents the pinnacle of precision environmental control technology, combining advanced temperature regulation with intelligent humidity management in a compact cabinet design.

Designed to house a variety of communications equipment, ...

The lineup consists of six models, with two size variations, 105 liters and 206 liters, and four temperature/humidity ranges, to accommodate your needs.

They feature power supply, distribution, and protection equipment as well as radio systems and passive or active cooling. Contact us today to learn about all the options and to find a solution that is right for ...

Equipment used to test the performance of materials in various environments and test the heat resistance, cold resistance, dry resistance and moisture resistance of various materials.

Keep insulated tools, PPE, and test instruments within a safe operating envelope. Our climate controlled storage cabinets deliver stable temperature and humidity, so rubber, polymer, and composite ...

The Base Station Energy Cabinet is a fully enclosed, weather-resistant telecom energy cabinet designed to provide reliable power distribution and battery backup for outdoor communication networks.

Temperature and humidity control system: 7-inch touch screen, the system has the functions of temperature control, humidity control, timing and over-temperature and over-humidity alarm; It is ...

With their highly efficient refrigeration system and outstanding thermal insulation, constant climate cabinets are ideal for use in laboratories and research facilities.
