

Corrosion-resistant folding container for field research

Discover why high-strength steel folding containers withstand hurricanes, earthquakes, and corrosion. Learn how ASTM A572, Corten, and galvanized steel ensure long-term structural ...

Improve safety and ensure containment with secure self-close corrosive containers for laboratories. These translucent high-density polyethylene cans resist acids and caustics.

These modular container labs are ideal for environmental monitoring, clinical trials, and remote data collection, offering 20 ft. and 40 ft. containers that are weather-resistant, quickly deployable, and ...

Folding container houses have good fireproof, waterproof, corrosion resistance, sound insulation, and performance. It can resist 11-level strong wind and 10-level earthquake.

Our containers and drums are designed and purpose built for use with ADR/RID hazardous substances I, II, and III (X/Y/Z). We are also able to provide certifications in line with IMDG, ICAO, and DOT ...

Stainless steel pots spread heat evenly and resistant to corrosion. Stainless steel has excellent chemical stability and is non-reactive to alkalis and acids. Stainless steel pots are resistant to scratching or ...

The mobile container laboratory designed specifically for oil research has become a "mobile weapon" for industry scientific research and innovation with its highly integrated cutting-edge ...

These portable water tanks are corrosion resistant and feature a standard floating foam collar that rises with increased water levels and lean angle that prevents spillage on uneven surfaces. Choose from ...

Constructed with high-strength galvanized steel and fire-rated insulation, this Foldable Container Home delivers a safe, comfortable, and energy-efficient space wherever you need it.

Big Mex Trailers offers a fully-engineered Container Laboratory, designed for high-performance field testing and scientific research in remote environments. This unit combines mobility, resilience, and ...
