

At EMBS, we take great pride in our ability to manufacture custom lithium-ion battery packs for several of the world's major professional power tool manufacturers.

Explore custom power tool batteries, optimized for drills, saws, and impact tools. High-performance, certified, and tailored to your requirements.

CM Batteries? focuses on designing and manufacturing custom lithium-ion battery packs for power tools like drills, lawn mowers, and more.

Design custom battery packs with ease! Create packs using new or existing lithium cells, adjust capacity & voltage, and visualize your configuration instantly. Perfect for DIYers, engineers, and battery ...

Our battery design team uses the latest mechanical and electronic design tools to optimize the reliability, safety and manufacturability of your custom battery packs.

Inventus Power specializes in highly engineered custom battery solutions that are designed, tested and manufactured for safety, reliability, and optimal performance. We are cell chemistry agnostic and ...

Electric Power Tool Battery Sixpack offers prototyping and volume manufacturing of custom batteries for your power tools. We continuously research and develop new battery technologies, from initial ...

We are a technology-agnostic custom battery manufacturer, allowing us to select and engineer the ideal chemistry to meet the specific performance, safety, and cost requirements of your device.

Ready to Power Your Tools with a Custom Battery? From compact drills to heavy-duty industrial equipment, LanDazzle delivers tailored battery solutions that combine high power output, long cycle ...

At BatterySpace, we provide all your needs for custom batteries. We carry a full line of different kinds of batteries, as well as top brand batteries in our US warehouse.
