

What is the additional installation user manual for Trina Solar?

Trina Solar | Additional Installation User Manual This document is intended to add mounting options in addition to the already existing and described methods within the Trina Solar User Manuals. In order to achieve the best use of installation of systems, mounting system shall be designed

What voltages can Trina Solar modules operate at?

Trina Solar modules are certified for operating in Application Class A installations at voltages below 1000V DC (For TSM-PE05A, PE14A, below 1500V DC).

Can Trina Solar modules be installed in landscape or portrait orientation?

SITE SELECTION Trina Solar Modules can be mounted in landscape or portrait orientation however the impact of dirt shading the solar cells can be minimized by orienting the product in landscape. Solar module is recommended to be installed at an optimized tilt angle to maximize the energy output.

What is the clamp position of Trina Solar?

Trina Solar official website: [m.um-m-0003/Ver. A C th](http://m.um-m-0003.ver.ac.th) the module short side **Graphic view** Description Clamp position can be within the range 0 - xxx mm (clamping range refers to Table 1) for all 4 clamps attached to the module short side; clamping range can be asymmetrical, clamp 1 & 2 can have a different posi
