

Located in the northern municipality of Nagua, the Payita 2 solar park will be paired with a 4-hour duration 15MW/60MWh battery energy storage system (BESS). The project will be located in...

With this long-term energy vision, the Dominican Republic positions itself as a pioneer in the Caribbean region. By combining solar and wind power with advanced storage systems and creating a strong ...

Joel Santos, minister of energy and mines in the Dominican Republic, announced a goal of 300 MW of battery energy storage systems (BESS) by 2027 during a speech at a Caribbean ...

The market reaction has been emphatic. The renewable generation auction with storage launched by the Dominican Republic has far exceeded expectations, attracting 32 solar PV and wind ...

The solicitation specifically seeks to contract new wind and solar photovoltaic generation bundled with storage systems, with project capacities ranging from 20 MW to 300 MW, to reach the ...

Construction has started on the first major solar-plus-storage project in the Dominican Republic, which features a 24.8MW/99MWh battery energy storage system (BESS).

A notable achievement is the upcoming launch of the first four-hour energy storage system linked to a solar project, set to be operational by mid-2025. This system will participate in the ...

This commitment to energy storage is part of the Dominican Republic's broader strategy for a cleaner, more sustainable energy system. The nation has already made remarkable progress in ...

The stakeholders estimated that by 2028, the Dominican Republic will need to deploy between 250 to 400 MW of energy storage systems. Their projection is based on the country's ...

Zenith Energy Corp SRL, a subsidiary of Blacktree Capital Management, has initiated construction of the 101.2-MWp Dominicana Azul solar farm in the Dominican Republic, launching a project that will ...
