

DIY-friendly off-grid & backup power for Hawaii by Solarman.

The Sol-Ark is simple to install to a Grid-tied, Off-Grid, or Battery Backup solar system, while being able to manages power to and from Solar, Battery, Grid, Loads, and Generator.

The Sol-Ark 5K-1P-N 5KW Hybrid Inverter is the ultimate solution for efficient ...

This hybrid inverter system simultaneously manages power to and from a solar PV array, a battery bank, the grid, a backup generator, and your loads. It supports 5kW of continuous power for off-grid ...

Sol-Ark hybrid inverters are suitable for grid-tie and off-grid solar panel systems, and make installation simple and fuss-free.

These inverters can manage up to 15,000W of solar power and feature a 200A transfer switch. They're ideal for off-grid living, whole-home backup, or commercial applications.

See Installation Guide for more details on sizing array strings. The highest input voltage is based on the open-circuit voltage of the array at the minimum design temperature. SK150-0007-002.

With a charger controller, a display with remote monitoring, and many other built-in features. This inverter is flexible, efficient, and simple to install to a Grid-tied, Off-Grid, or battery backup solar ...

Its all-in-one design includes an inverter, charge controller, and display, simplifying setup while ensuring robust power management. This system can operate with or without batteries, making it a flexible ...

The Sol-Ark 5K-1P-N 5KW Hybrid Inverter is the ultimate solution for efficient solar energy conversion and backup power. Designed for residential and small commercial installations, this advanced hybrid ...

Sol-Ark 5k Hybrid Inverter provides easy installation, AC/DC coupling, fleet management and award winning warranty and service.
