

PARIS, Dec. 9, 2025 /PRNewswire/ -- EDF power solutions enters Obelisk, a hybrid project located in Egypt combining a 1.1GW solar plant and a 100MW/200MWh battery storage located in the city of ...

Officials said the project is Egypt's first utility-scale integrated solar and storage installation. Trina Storage supplied its advanced Elementa 2 platform for the project.

Egypt's government has signed contracts with developer AMEA Power for two large-scale battery energy storage projects, the country's first.

On completion, it will be the first integrated solar photovoltaic and battery storage project of this scale in Egypt, and a significant milestone in the country's energy transition. Egypt aims to ...

The EBRD has provided a \$30 million equity bridge loan for Egypt's first major hybrid renewable energy project in Nagaa Hammadi, combining 1.1 GW of solar power with a 100 MW/200 ...

Dubai-headquartered, MENA-focused renewable energy company Amea Power has announced the successful financing and the start of construction on a giant solar-and-storage project ...

Earlier this year, state-owned utility Egyptian Electricity Holding Co. held an expressions-of-interest tender for the design, construction and operation of a 8.2 MW solar plant and 2 ...

AMEA Power, one of the fastest-growing renewable energy companies, signs Power Purchase Agreements (PPAs) to develop largest solar PV in Africa and first utility-scale battery ...

By leveraging advanced battery storage technology, the project will not only enhance industrial energy efficiency but also contribute to the nation's long-term goal of reducing carbon ...

The total cost of this project stands at \$479.1 million--roughly 80% of its capital expenditure--and it will deliver 1.1 GW of solar power along with 200 MWh of battery storage capacity.
