

Featuring an advanced battery management system (BMS), power conversion system (PCS), liquid cooling, and intelligent energy management (EMS), this energy storage cabinet ...

Factory pre-installed, plug-and-play with modular design for quick and easy installation, saving time and boosting efficiency. Connect directly to diesel generators without extra equipment for effortless ...

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications. Explore reliable, and IEC ...

One LiHub cabinet consists of inverter modules, battery modules, cloud EMS system, fire suppression system, and air-conditioning system. The LiHub is IP54 rated and can be installed both indoors and ...

By seamlessly integrating leading brands hybrid inverters into the IP55-protected battery cabinet, a compact, easy-to-install, and high-performance turnkey energy storage system is achieved. This ...

Safety designs such as water and electricity separation, three-level fire protection + explosion venting + exhaust, liquid cooling + dehumidification design, all ensure the safety of the energy storage ...

Stackable installation, free of complex wiring. Just stack, plug-and-play, and enjoy fast, seamless commissioning. Lightweight-designed inverters save installation and transportation costs, while ...

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency applications, our solutions offer remote ...

Fully integrated, pre-configured, and packaged systems can help reduce footprint, onsite installation time, and cost, and increase quality and reliability. Scalable from Residential to Utility.

The all-in-one air-cooled ESS cabinet integrates long-life battery, efficient bidirectional-balancing BMS, high-performance PCS, active safety system, smart distribution and HVAC in into one cabinet, ...
