

Three initiatives, regulations or policies related to decentralised energy storage have been updated or introduced by the relevant agencies at the national or state level.

This study explores diverse grid scale energy storage solutions crucial for India's sustainable energy future and addresses critical aspects of the power sector, emphasizing the need ...

Such an interdisciplinary approach is required to provide sustainable solutions for meeting the ever-growing energy requirements of the nation. IIT Delhi is privileged to host this centre as the nucleating ...

NEW DELHI | 8 May, 2025 -- The GEAPP Leadership Council (GLC) today officially announced the launch of India's first utility-scale, standalone Battery Energy Storage System (BESS) project, the ...

New demand-driven renewable energy (FDRE) tenders will help reduce India's reliance on coal and other conventional power sources.

TERI - The Energy and Resources Institute: is a not-for-profit, policy research organization - working in the fields of energy, environment, and sustainable development

With India projected to account for 40% of global energy demand growth by 2040 and targeting 50% electricity generation from renewables by 2030, the need for robust energy storage ...

India Energy Storage Alliance (IESA) is a leading industry alliance focused on the development of advanced energy storage, green hydrogen, and e-mobility techno

ISTI Portal is a central repository of content generated in and by the Indian STI ecosystem with a major thrust to reach out to students, researchers, scholars, scientists from India and abroad, as to help ...

The increased demand for energy has prompted users to seek alternative energy storage devices. Post Li-ion battery chemistries have been considered potential contenders for the development of next ...
