

The Government of Fiji is committed to the substantial legal and regulatory reforms required to bring more renewable energy into electricity generation. Examples of proposed reforms are provided below.

With bids now open, this initiative aims to deploy cutting-edge storage solutions to harness Fiji's abundant solar and wind resources. Think of it as building a giant "energy savings account" for rainy ...

Apr 22, 2025 · Canberra-based renewable energy company EPC Solar has made its first foray overseas, launching into Fiji where it says it has a pipeline of more than 40 potential solar and energy storage ...

Currently the Director of Energy is Mr Paula Katirewa who leads more than 50 staff. The Department of Energy (DOE) focuses on four strategic areas for the development of a sustainable energy sector in ...

Canberra-based renewable energy company EPC Solar has made its first foray overseas, launching into Fiji where it says it has a pipeline of more than 40 potential solar and ...

The Department of Energy ("the Employer") invites bids from eligible Bidders for the construction and completion of 100 kW Solar PV- (Mini Grid) - With Battery Energy Storage System, Fiji Islands ("the ...

[Download PDF copy showing Fiji's major energy projects timeline and cost.](#)

In early 2021 VES proudly launched a pilot solar project with Fiji Ports Corporation Limited. We installed a preliminary solar PV system atop an office building. Over time the plan is to energize the port's ...

With on-site solar energy generation in Fiji, businesses can generate their own electricity and become less vulnerable to power outages, grid disruptions, and energy supply constraints.

As renewable energy projects accelerate across Pacific Islands, Fiji's energy storage photovoltaic power stations demonstrate how civil engineering innovations enable sustainable energy transitions.
