

The 70 MW/140 MWh BESS project will be located in Nivala, northern Finland. Set to go online in 2026, the facility will enhance grid stability, energy resilience and accelerate green electrification.

Battery Energy Storage Systems (BESS) enable the storage and release of electricity, thus stabilizing the electricity market. Olana's primarily implements energy storage facilities in close proximity to solar power ...

Once commissioned in early 2025, the system will be one of the first large-scale BESS operating in Finland, according to the statement. Helen noted its investment in the project is aligned with its goal of ...

The project is aligned with the ACEEF strategy in Finland, which aims to acquire and aggregate wind and solar power assets to benefit from economies of scale and to better utilize the grid interconnection ...

SEB Nordic Energy's portfolio company Locus Energy, in collaboration with Ingrid Capacity, proudly announces the groundbreaking of one of Finland's largest battery energy storage system (BESS) in ...

As Finland takes on more renewable energy sources to meet carbon neutrality goals by 2035, Sargent & Lundy is helping stabilize the country's grid by supporting the installation of additional battery energy storage ...

Merus Power has signed a contract with a joint venture between Skip Wind 5 Oy, a Finnish holding company of Ardian Clean Energy Evergreen Fund (ACEEF), and Lappeenrannan Energia Oy, a ...

Ingrid Capacity, in collaboration with SEB Nordic Energy's portfolio company Locus Energy, is developing Finland's largest and one of the Nordics' largest battery energy storage systems (BESS) in ...

From advanced batteries to smart software, the Cactus system is designed and built in Finland. It works quietly in the background, optimizing your energy use without you having to do a thing.

Search all the commissioned and operational battery energy storage system (BESS) projects, bids, RFPs, ICBs, tenders, government contracts, and awards in Finland with our comprehensive online database.
