

German portable backup power supply manufacturer

What should you know about the power supply industry in Germany?

The Power Supply industry in Germany is characterized by several key considerations that potential entrants should be aware of. Regulatory frameworks are stringent, with the European Union's directives on energy efficiency and sustainability greatly influencing operations.

Who is German power?

With the experience of a specialist in power supply systems for decades, we develop and produce smart power supplies in small and large quantities, from standard products to individual special designs. Welcome to German Power! Are you looking for smart solutions for your power supply? No problem.

Are the prototypes of the power supply EMC-optimized?

The prototypes of the power supply are EMC-optimized by us. On request we compile all necessary documents for safety approval (EN, UL, CSA, IEC) and accompany the certification. We accompany the series production and its tests at our cooperation partners. Testing and final assembly is done in-house or at the assembler.

Our comprehensive database is filled with information and includes profiles of German subcontractors for Safety and backup power supply systems.
