

Germany's Federal Network Agency (BNetzA) published on Thursday the price ceilings for the renewable energy generation auctions that will be carried out in 2025.

The German Federal Network Agency, Bundesnetzagentur, has reduced the price ceilings for 2025 solar PV auctions to reflect the decreasing levelized cost of electricity.

Germany has revised down the price ceiling for roof-mounted solar PV systems to EUR0.1/kWh for tenders to be held in 2026, according to a report from pv-tech .

Bid prices for the awarded projects ranged between 3.88 and 4.95 cents per kWh, for a volume-weighted average of 4.76 cents per kWh. This was the fifth consecutive auction where total ...

The new price ceilings take into account the decrease in the forecast levelised costs of electricity, the results of the last three rounds in each type of auction and the larger volumes that will ...

The Bundesnetzagentur has set new price ceilings for Germany's 2025 renewable energy auctions: 6.80 ct/kWh for ground-mounted solar PV, 7.35 ct/kWh for onshore wind, 9.00 ...

In 2025, Germany's auctions for ground-mounted solar PV systems, rooftop solar PV systems and innovative auctions (solar-plus-storage) will see a price ceiling decrease.

Germany has set new feed-in tariffs for solar systems up to 100 kW starting Aug. 1, ranging from EUR0.06327 (\$0.073)/kWh to EUR0.1247/kWh, regardless of self-consumption.

The levelized cost of energy (LCOE) of solar PV in Germany currently ranges from EUR0.041 (\$0.049)/kWh to EUR0.144/kWh, according to a new report from the Fraunhofer Institute for Solar ...

Solar Panel FAQ How much does a solar system cost in Germany? A typical 5-8 kWp system costs between EUR8,000-15,000 after subsidies. The cost has decreased significantly in recent years while ...
