

# Global lithium battery energy storage market

The global lithium-ion battery energy storage market size was valued at USD 24.80 billion in 2024. It is projected to be worth USD 32.37 billion in 2025 and expected to reach USD 113.64 ...

The lithium-ion battery market size crossed USD 75.2 billion in 2024 and is expected to grow at a CAGR of 15.8% from 2025 to 2034, driven by the shift to green energy and rising use in EVs and renewable ...

This report provides a detailed overview of the global lithium-ion battery market, covering key components such as cathodes and electrolytes, battery types (such as NMC, LFP, NCA), and ...

In 2024, Lithium-ion held a dominant market position, capturing more than a 62.10% share of the global battery energy storage system (BESS) market. The growth of this segment is driven by its high ...

To define, describe, and forecast the battery energy storage system (BESS) market in terms of battery type, energy capacity, ownership, connection type, application, and region.

The global lithium-ion battery industry is primarily driven by rising adoption of electric vehicles, increasing deployment of renewable energy, and growing demand for efficient and reliable energy ...

This report provides a holistic view of the Lithium-ion Battery Energy Storage Market across all key dimensions. It offers in-depth analysis of market size, segmentation (by type, product, ...

The lithium-ion battery market is growing at a global CAGR of 15.8% from 2025 to 2035, driven by rising demand for electric vehicles, renewable energy storage, and consumer electronics.

According to Statistics MRC, the Global Lithium-ion Battery Energy Storage Market is accounted for \$5.26 billion in 2023 and is expected to reach \$15.80 billion by 2030 growing at a CAGR of 17.0% ...
