

The Mengxi Blue Ocean PV Power Plant Project in Gobi desert is China's largest single site solar power plant.

China just made history by revealing the largest solar farm in the world, located in the western deserts of Gobi. The South China Morning Post and Asia Financial estimate that this ...

China just connected its largest single-capacity solar farm built on a former coal mining area, which is in the Gobi Desert, to the grid.

Its products and solutions are widely adopted and recognized by customers worldwide, with extensive expertise accumulated in delivering tailored solutions for desert and arid environments.

Discover how Trinasolar's solar technology is transforming the Gobi Desert's sands into a thriving hub of renewable energy, paving the way for a sustainable future and ecological restoration.

China's Gobi Desert is home to a groundbreaking solar power station, a world-first design that slashes costs and significantly boosts energy efficiency.

JA Solar has supplied 1 GW of photovoltaic modules for the Suji Sandland Project, the largest solar power plant now operating in China's Gobi and other desert regions.

China recently unveiled its largest single-capacity solar farm, the Mengxi Blue Ocean Photovoltaic Power Station, in the Gobi Desert. This massive solar installation has an installed ...

Trinasolar's Vertex modules revive the Gobi Desert, expanding clean energy and ecological recovery July 14, 2025

This new plant is designed to be cheaper and more efficient than traditional solar thermal power stations, making it a major step forward for renewable energy. The power station is located in ...
