

Santo Domingo - The executive director of the National Energy Commission (CNE), Edward Veras, announced during Energyyear Caribe 2024 that the CNE's board of directors approved ...

Solar panels take naps when clouds roll in, wind turbines get stage fright on calm days, and batteries? Don't even get me started on their "I need constant pampering" attitude. Enter gravity energy storage ...

The Huijue Group Off-Grid Solution comprises three main components: photovoltaic systems, energy storage systems, and off-grid systems, enabling energy self-sufficiency.

Located in the heart of the Caribbean, this project addresses one of the biggest challenges in renewable energy: intermittency. But how exactly does it work, and why should businesses care? Let's dive in.

As Santo Domingo positions itself as a renewable energy leader, mobile storage solutions are rewriting the rules of power accessibility. Whether you're managing a hotel chain or coordinating disaster ...

While lithium dominates today, the Santo Domingo project serves as a testing ground for emerging technologies. Last month, engineers successfully integrated a 5MW solid-state battery prototype - a ...

Nepal Gravity Energy Storage Project Gham Power together with its partners Practical Action and Swanbarton have officially been awarded a project by United Nations Industrial Development ...

From stabilizing solar farms to keeping lights on during storms, energy storage containers are rewriting Santo Domingo's energy rules. As battery prices keep falling (19% drop since 2021), there's never ...

The real game-changer might be underwater compressed air storage - using deep coastal trenches for massive energy reserves. Huijue's pilot program near Samaná Bay could store enough energy to ...

Construction has started on the first major solar-plus-storage project in the Dominican Republic, which features a 24.8MW/99MWh battery energy storage system ...
