

The IEA Demonstration Projects Database seeks to map major demonstration projects of clean energy technologies, globally. For each project, it provides information on location, sector and technology ...

OCED is a multi-technology office with demonstrations that include clean hydrogen, carbon management, advanced nuclear reactors, long-duration energy storage, industrial demonstrations, ...

Governor Hochul announced that New York State will receive U.S. Department of Energy (DOE) funding for a long-duration energy storage demonstration project that will use fire-safe battery ...

The project, which will be located at NREL's Flatirons Campus in Arvada, Colo., uses GKN Hydrogen's storage technology to store hydrogen in a solid state (metal hydrides) compared to ...

Duke Energy Florida unveiled its DeBary Hydrogen Production Storage System in Volusia County, the first demonstration project in the United States capable of using an end-to-end system to ...

Fluence is a global market leader in energy storage products and services, and cloud-based software for renewables and storage assets.

The system comprises two 1 MW electrolyzers with a 2,500 kg hydrogen storage tank, located at Duke's existing DeBary solar facility, a 74.5 MW array originally completed in 2020. The ...

Huijue Group offers industrial and commercial energy storage, PV-BESS -EV Charging, Off-grid / On-grid Microgrid, telecom site solutions, and home solar energy storage, ensuring ...

Duke Energy Florida has unveiled its DeBary Hydrogen Production Storage System in Volusia County, the first demonstration project in the United States capable of using an end-to-end ...
