

Imagine your smartphone battery could power an entire neighborhood - that's essentially what Guoxuan's latest project achieves. This cutting-edge energy storage power station isn't just another ...

Initial production is reportedly expected to be 40 GWh of battery cells and 10 GWh of battery packs. Illinois Gov. J.B. Pritzker expects the plant, about 40 miles from Chicago, to create ...

Guoxuan High-tech stands at the forefront of the energy storage industry, offering a sophisticated portfolio that includes lithium-ion batteries, energy storage systems, battery ...

At the SNEC 2025 exhibition, GuoXuan High-Tech proudly unveiled an array of energy storage solutions, highlighting the groundbreaking Qianyuan Zhichu 20MWh energy storage battery system ...

Under the large-scale expansion, Gotion Hi-Tech has built a production and R& D system from lithium resources and battery cell manufacturing to battery PACK and energy storage systems, ...

Guoxuan Hi-Tech's high specific energy semi-solid-state battery, with an energy density of 360Wh/kg, has passed the new national standard safety test and has transitioned into the ...

The energy storage cabin adopts a modular integrated solution, with a single cabin energy storage capacity of up to 20MWh, a design life of up to 25 years, and technical indicators ...

The entire industry chain has been connected last year, and the annual production capacity of materials has exceeded 10,000 tons. The battery cells have been successfully installed in ...

Responsible for developing a new generation of lithium-ion battery electrolytes, and providing customized electrolyte solutions and high-quality electrolytes for primary lithium batteries, secondary ...

The company focuses on the industrial vehicle industry chain and provides a comprehensive solution for new energy lithium batteries.
