

# How much does an outdoor power supply normally cost

How much does an outdoor socket cost in the UK?

Generally, the cost to have an outdoor socket installed in the UK ranges from £75 to £150, including both materials and labour. Installation methods may vary in complexity and cost, influencing the overall price and effort required. [Hardwired vs. Plug-in Outdoor Socket Options: What's Right For You?](#)

Do outdoor sockets need to be IP rated?

For safety, all outdoor sockets and enclosures must be IP-rated to protect against water and dust. In the UK, an IP66 rating is generally recommended, as it ensures the socket is fully weatherproof even during heavy rain. Always check the product's rating before installation, and have it fitted by a qualified electrician to meet safety standards.

Should you choose a hardwired or plug-in outdoor socket?

When considering installation methods, you often need to decide between hardwired and plug-in outdoor sockets. Each option has its benefits and cost implications: Hardwired sockets offer durability, are ideal for heavier power needs, and provide a tidy installation without visible cables.

How much does it cost to install a socket?

When installing the socket, you should consider the main cost as the hourly pay rate of the electrical expert working on this socket. On average the task can take up to two hours because it's not a complicated task. If you want to install a cheap socket and the areas you need to set up are easy to access, the cost can be around £132.53.
