

IP54 High-Efficiency Outdoor Cabinet 2026 Model

IP54 High Efficiency Outdoor Battery Storage System Cabinets with Protection Degree Multimodal Use
US\$35,140.00 1-19 Pieces

Empower your off-grid projects and grid-support applications with a reliable outdoor battery storage cabinet from TOPBAND. Engineered for harsh climates and demanding workloads, our outdoor ...

High-capacity modular design that can be scaled from 215kWh to multi-MWh configurations. IP54-rated outdoor cabinet that withstands extreme temperatures, dust, and moisture. Real-time load ...

Engineered for reliability and performance, it provides a durable and efficient enclosure for batteries and electrical components operating in demanding outdoor environments.

With IP54/IP55 protection, anti-corrosion design, and intelligent temperature control, they are ideal for telecom base stations, remote power supply, and containerized microgrids. Our outdoor cabinets are ...

All-in-One Outdoor Energy Storage Cabinet integrates a 125kW bi-directional PCS inverter and 215kWh LiFePO4 battery into a rugged, space-saving solution for commercial/industrial applications.

Designed for harsh environments and seamless integration, this IP54-rated solution features a 105KW bi-directional PCS, optional air- or liquid-cooled thermal management, and parallel operation ...

The outdoor cabinet BESS CX-CI001 is an all-in-one 20kWh lithium battery energy storage cabinet system developed for demand regulation, peak shaving, industrial and commercial energy storage, etc.

The energy storage cabinet has a long lifespan of 10 years, protective class reaches IP54, with a forced air cooling method, over 6000 cycle times at 80% DOD, 25?.

Paired with high-efficiency heat exchangers, it promises consistent cooling. A significant advantage of this system is its ability to prevent freezing risks, ensuring the longevity of the equipment.
