

# Intelligent Photovoltaic Energy Storage Container with Two-Way Charging

Energy Storage System Products List covers all Smart String ESS products, including LUNA2000, STS-6000K, JUPITER-9000K, Management System and other accessories product series.

The solar photovoltaic container is a modular mobile energy solution that integrates photovoltaic power generation, energy storage systems, and intelligent control equipment.

Two-way EV Charging Pioneering V2X. With SigenStor DC-coupled charging module, you can harness the power of the sun and directly charge your EV with clean solar energy. Moreover, it will allow you ...

Paired with modular fast-charging units, the system allows for intelligent energy replenishment tailored to actual usage needs, enabling flexibility across EV fleets, microgrids, and ...

The system is a mobile energy storage system (large charging bank) composed of energy storage inverter, lithium iron phosphate battery pack and outdoor container, with a capacity of ...

Adopting 40-foot non-walk-in container design, the highly integrated and modular energy storage unit inside the container is convenient for transportation, installation and maintenance.

The products are widely used in smart grids, wind and solar power distribution and storage, industrial and commercial energy storage, green transportation, and other fields.

Highjoule's PV-BESS-EV Charging System combines solar power, smart battery storage, and fast EV charging in one efficient solution. It reduces grid reliance, cuts energy costs, and enables clean driving.

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency rescue and ...
