

Here's the juice - while specific projects might crash harder than a crypto bro's portfolio (looking at you, Zhejiang's 2024 commercial storage collapse) [6], the energy storage sector itself is ...

A hydro project that could store enough energy to power most homes in Seattle just got the go-ahead from the federal government. Developers say it will help the Northwest meet its carbon ...

Compass Energy Storage LLC's proposed 250MW BESS facility in San Juan Capistrano faces opposition due to fire, health, environmental, and economic concerns. Local communities and ...

In a surprising move, the North American development arm of Engie has asked the California Energy Commission (CEC) to pause the review of its Compass Energy Storage project ...

In a decision that has ignited fierce opposition from Indigenous leaders and environmental advocates, the Federal Energy Regulatory Commission (FERC) on Jan. 22 issued a 40-year license ...

Well, you know what they say - where there's a green energy boom, there's someone trying to make a quick buck. In Q1 2024 alone, Chinese regulators investigated 47 energy storage ...

A renewable energy company that wants to construct a battery storage project between San Marcos and Escondido has scaled back the footprint of the proposed facility -- but judging from ...

Why it matters: Energy storage is key to moving away from fossil fuels, but area tribes argue no climate benefit justifies damage to culturally and spiritually significant land.

The proposed and controversial Compass Energy Storage Project planned for San Juan Capistrano is no longer moving forward, after developer ENGIE North America announced in a letter ...

A rendering of the proposed Goldendale Energy Storage Project. (Image courtesy of Rye Development)  
Federal energy regulators last Thursday greenlit a roughly \$2 billion renewable energy ...
