

Israel shopping mall solar curtain wall custom manufacturer

What is a curtain wall?

Curtain walling refers to a non-structural cladding system made from fabricated aluminum, commonly used on the outer walls of tall multi-storey buildings. This lightweight material offers ease of installation and can be customized to be glazed, opaque, or equipped with infill panels.

Why should you choose Onyx Solar photovoltaic curtain wall?

Thanks to Onyx Solar Photovoltaic Curtain Wall, buildings become a real power plant, keeping their design appeal, aesthetics, efficiency and functionality. They are more cost-effective than systems constructed with conventional glass. Reduce your monthly electricity costs by producing your own energy. REACH OUT NOW TO SEE HOW!

What is a photovoltaic curtain wall?

They enhance thermal comfort and help prevent the greenhouse effect. A standard curtain wall offers no return on investment. In contrast, a photovoltaic curtain wall not only insulates the building but also generates power for over 30 years. This reduces monthly electricity bills and ultimately pays for itself over time.
