

Africa's renewable energy shift is driving demand for battery storage. RelyEZ delivers integrated BESS solutions across Kenya and Burkina Faso to enhance grid stability.

The Kenya Electricity Generating Company is piloting use of a Battery Energy Storage System for uninterrupted renewable power, marking a new frontier in Kenya's green energy strategy.

The Kenya Electricity Generating Company (KenGen) has unveiled its first Battery Energy Storage System (BESS) at its Nairobi headquarters, a move aimed at powering its modular data ...

Discover how Kenya's energy storage battery sector is revolutionizing renewable energy adoption and addressing power challenges. This article explores key applications, market trends, and success ...

Currently, several companies are considering Kenya as a market for BESS technology and have engaged MoE and KP to further these discussions.

NAIROBI, Kenya, Feb 3 - Kenya has renewed its call for faster deployment of solar energy and battery storage as Intersolar Africa 2026 officially opened at the Sarit Expo Centre in Nairobi, ...

"You know what's surprising?" says Peter Mbutia of Kenya's Rural Electrification Authority. "These battery farms require 60% less maintenance than our old thermal plants.

This article delves into some of the most exciting innovations in the sector, from smart grids and energy storage solutions to advancements in renewable energy technologies.

Kenya has reaffirmed its commitment to accelerating solar energy deployment and integrating energy storage systems as part of efforts to strengthen grid reliability and meet rising ...

While KenGen's BESS project shows how storage can help with reliability, a country aiming to run entirely on renewable energy by 2050 will need not just dozens but possibly hundreds ...
