

In a significant move toward sustainable transportation, Dutch fast-charging company Fastned has launched its first solar-powered electric vehicle (EV) charging stations in Madrid.

Meet the Residential BESS Container, the unsung hero of Madrid's 2025 energy scene. In Acciona's 1,000-home project, these nifty 40-100 kWh units work their magic by charging at EUR0.12/kWh off ...

City authorities in Madrid have partnered with Iberdrola España to open Madrid's largest fast charging hub. It features dozens of fast and ultra-fast charging points and will serve other cities including ...

Discover Madrid's largest fast-charging station: 47 charging stations, solar energy, and a strategic location. Find out more here!

Currently, Spain is an avant-garde in energy futures. Since tariffs have been heightened by 22% in the year 2023 and EU green regulation is surging by 42% in the year 2030, the companies are demanding ...

Eranovum, a key player in Spain's renewable energy landscape, has been spearheading the transition to sustainable transportation through its strategic partnership with Wallbox since 2022.

Feature highlights: This Portable Outdoor Mobile Power Supply offers a large capacity lithium-ion battery with 2500+ life cycles and pure sine wave inverter technology, supporting AC, DC, and solar charging. [pdf]

In a major step towards sustainable mobility, Madrid has inaugurated one of the largest electric vehicle charging parks in Spain.

The LEGACHARGING project, located in Madrid's southern municipalities, is developing the largest ultra-fast charging station in Spain hybridised with a solar installation.

It combines solar PV, battery storage, inverters, and energy management in a rugged container. Ideal for autonomous energy supply wherever grid access is unavailable or undesired.
