

Mauritius sells energy storage power station

Qair International, a prominent French independent renewable energy producer, has successfully closed the financing for its 60 MWp hybrid solar and storage project in Mauritius.

In an exciting development for renewable energy in Africa, Qair, an Independent Power Producer (IPP), has successfully closed a loan to finance a significant 60MW hybrid solar photovoltaic and battery ...

The government of Mauritius has welcomed the commissioning of a 20MW battery storage project which will provide frequency regulation to the East African island nation's grid.

The Government of Mauritius has inaugurated a 20 MW grid-scale battery energy storage system (BESS) at the Amaury Sub-station, marking a significant stride towards its ...

Renewable energy developer Qair has secured financing from SBM Bank (Mauritius) Ltd for its Stor"Sun I and II hybrid solar-plus-storage projects. These two projects are part of a larger 60 ...

Mauritius" energy storage photovoltaic projects present \$240 million in immediate opportunities. With technical complexity increasing, strategic partnerships and localized solutions will determine bidding ...

French independent renewable energy producer Qair has closed a loan agreement to back the construction of 60 MW of hybrid solar-storage parks in Mauritius.

Qair announces the closing of a new loan to support the implementation of a hybrid solar and battery storage project in Mauritius.

French independent power producer Qair has closed a financing agreement with SBM Bank (Mauritius) Ltd to support the development of its 60-megawatt (MW) Stor"Sun hybrid solar and ...

As Mauritius transitions to a low-carbon economy, the CEB is actively integrating Battery Energy Storage Systems (BESS) to manage fluctuations in renewable energy sources like solar and wind.
