

Totally metal enclosed switchgear system is designed for indoor installation & substations. They can be put together to form a single or double-bus switchboards. The system is highly reliable & safe to ...

Metal clad switchgears are designed for places which have hard environmental conditions and also demanding high electrical and mechanical durability. They are manufactured levels from 12 to 36 ...

Aktif Elektrotechnik A.S., Experts in Manufacturing and Exporting Metal Clad Switchgears, Metal Enclosed Switchgears and 0 more Products.

Metal clad cubicles with their flexible designs, provide service continuity and maximum protection. So they open our doors to the world with 12 KV, 24 KV voltage levels, with our first compact 40.5 kV ...

24 KV Metal Clad Cubicle is an indoor, metal-clad switchgear unit intended for the MV section of HV/MV substations and high power MV/MV substations. 24 KV Metal Clad Cubicle adapts to all electrical ...

While the ASTOR family continues to offer high technology engineering and design products, we rapidly continue the mass production of air insulated Metal Clad cells, the new member of medium voltage ...

Advantages of The System
The Circuit Breaker Truck
Additional Equipment For The Cubicles
It is constructed from welded sheet steel which forms a rigid & strong body, protected against corrosion. The trucks carrying the breakers are provided with plastic rollers to facilitate motion. The mechanical interlocking system between earthing units ensures further advantages. See more on [ozgen](#).
