

The state-owned electricity supplier in the Federated States of Micronesia, Yap State Public Service Corporation (YSPSC) has invited bidders to deploy solar PV minigrids in Yap, a remote island in the ...

The Federated States of Micronesia are investing in solar micro-grids and battery energy storage systems as well as capacity building to increase self-sufficiency and reduce emissions.

Discover through this story how more than 3,400 people in a remote Micronesia community will gain access to 24-hour power for the first time using renewable energy grids by the ...

Yap State Public Service Corp. is seeking bids to supply solar minigrids with battery energy storage systems (BESS), totaling 79 kW, for Yap Island in the Federated States of Micronesia....

Specifically for Federated States of Micronesia, country factsheet has been elaborated, including the information on solar resource and PV power potential country statistics, seasonal electricity ...

New grid-connected solar generation and battery storage systems in Chuuk and Pohnpei will help FSM meet its goal of 70 percent renewable electricity by 2030, while cutting greenhouse gas emissions ...

In response to Australia's request, the FSM Government has agreed to undertake feasibility studies on the viability of constructing solar mini-grids in the islands of Yap and Pohnpei. ...

The Project outputs are: Solar PV and mini-grid in Kosrae installed 1.15 MWp solar photovoltaic installed in the Kosrae power system; Electrification of Walung Village, Kosrae with a hybrid solar (60 kWp), ...
