

Mobile integrated energy storage cabinet type for wastewater treatment plants

Our mobile water treatment systems are deployed via stand-alone units or modular units in combination to form complete systems with state-of-the-art purification technologies.

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency applications, our solutions offer remote ...

We offer a range of self-contained mobile systems for rent to handle planned maintenance, unique treatment needs, challenging locations, or emergencies. Our solutions incorporate reliable, proven ...

Our team delivers a wide selection of different water treatment systems that are converted into mobile units to meet your industrial and commercial needs. Check out our comprehensive list of ...

Orengo's AdvanTex technology has provided a reliable, energy-efficient alternative for wastewater treatment in some of the world's most remote places. The AdvanTex AX-Mobile is Orengo's most ...

AZE's All-in-One Energy Storage Cabinet & BESS Cabinets offer modular, scalable, and safe energy storage solutions. Featuring lithium-ion batteries, smart BMS, and thermal management, they're ideal ...

A high-capacity, 2 megawatt-hour battery energy storage system integrated into a standard 40ft container. Designed for large-scale renewable integration, peak shaving, and grid stabilization, ...

MWTPs are designed to treat a broad spectrum of wastewater, including municipal sewage, industrial effluent, and agricultural runoff. Manufacturers often customize solutions based on ...

KLARO Container is a flexible and mobile wastewater treatment system that can be used where a wastewater treatment system is required but there is no connection to the sewer system.

TLS supplies intelligent mobile and containerised waste water treatment plant or sewage treatment plant container, which can be remotely controlled to monitor system condition and water quality.
