

We specialize in large-scale energy storage systems, mobile power stations, distributed generation, microgrids, containerized energy storage, photovoltaic projects, photovoltaic products, solar industry ...

The Republic of Moldova has taken another significant step toward strengthening its energy security by initiating the procurement of a state-of-the-art Battery Energy Storage System ...

Moldova will purchase a state-of-the-art Battery Energy Storage System (BESS) with a capacity of 75 MW and internal combustion engines (ICE) with a capacity of 22 MW to strengthen the ...

The upcoming Moldova wind and storage tender will support up to 170 MW of new onshore wind capacity combined with mandatory battery energy storage. Bid submission is expected in March ...

The US will invest EUR78.6 million in a large-scale battery energy storage system in Moldova to enhance the country's energy resilience.

Moldova's ambitious push to transform its energy landscape through renewable auctions, especially the innovative integration of wind power with battery energy storage systems, marks a ...

The US government has pledged to make a USD 85-million (EUR 78.3m) investment into Moldova's energy segment by supporting the deployment of large-scale battery energy storage ...

Moldova is planning a new tender for the construction of large renewable energy parks colocated with battery energy storage for autumn this year. The timeline for the tender was presented ...

Battery cabinet storage solutions now account for approximately 60% of all new commercial and residential solar installations worldwide. North America leads with 48% market share, driven by ...
