

National subsidies for solar power generation are in arrears

The recent shift in federal energy policy marked by the passage of the One Big Beautiful Bill Act has sparked a significant debate regarding the future of wind and solar energy subsidies.

Congressional Republicans passed the One Big, Beautiful Bill, which put the brakes on federal clean energy subsidies by terminating investment and production tax credits for wind and solar...

President Donald Trump signed an executive order Monday to phase out federal subsidies for green energy like wind and solar farms, citing unsustainability for the grid and too much reliance ...

ENDING AMERICAN DEPENDENCE ON UNRELIABLE ENERGY SOURCES: Today, President Donald J. Trump signed an Executive Order to eliminate subsidies for unreliable "green" ...

In states like Arizona and Texas, several large-scale solar installations have been delayed or paused. Developers are struggling to source equipment at prices that maintain the ...

Subsidies are meant to drive prices down and boost supply. But subsidizing wind and solar has done exactly the opposite.

In a significant shift in energy policy, President Donald Trump has signed an executive order to eliminate federal subsidies for wind and solar power projects. This move is justified by the ...

"We are no longer allowing businesses to use your taxpayer dollars to fund solar projects on prime American farmland, and we will no longer allow solar panels manufactured by foreign ...

Not only does solar power receive tax subsidies, but it has also garnered sizable federal loans, particularly during the Obama-Biden administration. Solar plants are touted to operate for ...

Ending the massive cost of taxpayer handouts to unreliable energy sources is vital to energy dominance, national security, economic growth, and the fiscal health of the Nation.
