

Recently, Shanghai Sermatec Energy Technology Co., Ltd. achieved a major breakthrough in the European market by securing a 430+ MWh energy storage procurement project ...

Sermatec advances Sino-European green energy collaboration and returns by securing a 430+ MWh energy storage project in Bulgaria.

Electric vehicles and battery industries have become new hot spots for Chinese investment in Europe, further strengthening cooperation and injecting powerful momentum into Sino-European ...

Picture Europe's wind farms high-fiving China's solar arrays across continents. That's essentially what the China-Europe shared energy storage project aims to achieve - creating an ...

Qingpu-based Sinobrook New Energy Technologies (Shanghai) Co Ltd, a leading player in China's energy storage thermal management sector, has secured a significant contract to supply ...

In the UK, the Mendi Battery Energy Storage Project, developed by the China Huaneng Group and a symbol of Sino-European cooperation, is due to complete its final pre-implementation ...

The collaboration spans hydrogen, smart energy, new energy storage and offshore wind power, reflecting the multidimensional, in-depth and high-level nature of China-EU energy cooperation.

Chinese storage providers aren't just exporting products - they're establishing new operational blueprints that European utilities are scrambling to adopt. With 56.5 GWh of global contracts secured ...

As China's inaugural hybrid grid-forming energy storage project, it combines 10MW/20MWh lithium-ion batteries, 1MW/5min supercapacitors, and 200kW/400kWh sodium-ion ...

This section outlines key EU projects, initiatives, and market trends in energy storage, highlighting efforts to integrate renewables, enhance grid stability, and support the clean energy transition.
