

# No holes in the tiles for photovoltaic panel installation

Our No-Holes system differentiates itself in the solar industry by eliminating the need for drilling, ensuring that roofs are not compromised during installation.

Our team stands by no holes, no rails, and no problems! To learn more about our solar panel mounting system, simply contact us online or give us a call at (877) 757-7822.

Discover how to attach solar panels to metal, tile & flat roofs without drilling holes. Explore ballasted, clamp-on solutions that protect roof integrity. Certified for 60m/s winds & 20-year lifespan.

Fortunately, advances in solar technology and racking design have made it possible to mount solar panels securely without the need for drilling. One of the most common alternatives is ...

Up until recently, the only way to install solar panels without drilling was if you had a flat roof but the good news is that a few innovative companies have created systems that let you install ...

Discover the key reasons why drilling holes in roof tiles during solar panel installation can lead to long-term problems - and learn safer, more efficient alternatives.

Discover with Sun-Age how to fix solar panels WITHOUT drilling: innovative systems and reliable adhesives for an easy and safe installation on tiles, copings, tiles, bituminous sheath, various roof ...

Adhesive tapes, liquid glues, and sprays help with no drilling panel installation. If we use drilling while installing solar panels, it can cause potential leaks issues and damages. This can be ...

Enter photovoltaic brackets without holes, the game-changer that's making contractors breathe easier and roofs stay drier. These innovative mounting systems are flipping the script on solar installation, ...

Drilling holes in tiles and then using some sort of sika or mastic is only going to last so long. It's called double flashing, they don't use caulk or mastic. A metal piece is placed over the cutout and tucks up ...
