

Engineered to endure harsh conditions, it withstands up to 8000 Pa downforce and 6000 Pa uplift when installed with a three-beam system, making it one of the strongest solutions available for typhoon ...

With the Philippines grappling with grid instability and surging residential energy demands, the company spotlighted two flagship innovations: its utility-focused PowerTitan 2.0 battery storage system and ...

With EverCore, SolisStorage is changing that narrative by offering a system specifically engineered to be simple, smart and dependable for large-scale applications. The Philippines is among the ...

With its unprecedented scale and forward-thinking design, the MTerra Solar Project is a cornerstone in the Philippines' clean energy transition. Its Solar PV-BESS hybrid infrastructure ensures ...

Maria Theresa "Tetchi" Capellan, a pioneer of solar PV in the Philippines, discusses the country's crucial turning point in its adoption of energy storage. Tetchi Capellan is president and CEO of SunAsia, a ...

The project, which is strategically located on the Philippines' main island of Luzon, about 100km from Manila, will combine 3.5GWp of solar PV capacity with 4.5GWh of battery energy storage system ...

A large-scale solar and battery energy storage project in the Philippines is moving forward faster than expected, with 54% of the first phase completed just eight months after construction began.

UK investment firm Actis has finalised its investment in Terra Solar Philippines Inc, thus taking an equity stake in a GW-scale solar and energy storage project in a deal worth USD 600 million (EUR 550.5m).

This practical application demonstrates how storage can be tailored to facilities with meaningful off-grid use beyond typical business hours, enabling smoother, more efficient energy management.

Advancing Solar and Energy Storage for Smarter, Cleaner Energy PSSEA leads the shift to energy-saving solutions by uniting industry leaders and shaping policies that drive clean, reliable, and ...
